# Kendall™ Medical Tapes and Adhesives

We've  
got it all:

performance,  
selection  
and value.

Kendall™ Medical Tapes and Adhesives are the perfect choice to provide premium patient care. Each tape has been engineered to ensure that the backing and adhesive characteristics meet specific taping techniques and applications. Choosing the right product for the right application is vital in ensuring positive patient outcomes. We are proud to deliver a comprehensive collection of tapes and adhesives.

## Kendall™ Clear Plastic Tape

- A latex-free, hypoallergenic and transparent plastic tape
- Provides a barrier from external fluids and contamination
- Offers strong adhesion
- Easy to tear, even with gloves on
- Ideal for securing tubing and dressings that require monitoring

## Kendall™ Cloth Tape

- Latex-free, hypoallergenic soft cloth polyester tape offers excellent adhesion yet is gentle
- Highly conformable, comfortable, porous and breathable
- Stretches to accommodate swelling and movement
- Easy to handle, with or without gloves
- Will not stick to itself or permit curling of the edges

## Kendall™ Cohesive Bandages

- Self-adherent wrap made with a non-woven material and elastic fibers that provide elasticity
- Elastic wrap contains a cohesive material allowing it to stick to itself but not to other materials or skin
- Variety of widths and colors available

## FEATURES

- Clean, straight, bi-directional tear
- Tailors to specific techniques and applications (i.e., I.V. securement)
- Porous
- Great skin and tubing adhesion
- Transparent, allowing visibility to the skin
- Hypoallergenic and latex-free

- Easy-tear rolls
- Gentle, breathable to maintain skin integrity
- Latex-free and hypoallergenic for sensitive patients
- Excellent cross and diagonal stretch to accommodate moderate swelling or movement
- Easy to handle: no curling or self-adhesion
- No paper liner for more economical and efficient use

- Sticks to itself without need for adhesive, pins or clips for fast and easy application
- Non-slip; no need for frequent readjustment
- Comfortable for patients
- Lightweight, porous
- Protects primary dressings
- Desired amount of compression at time of application

## APPLICATIONS

- Tubing securement (i.e., I.V. tubing, oxygen tubing, catheter)
- When customization of tape width/length is needed
- Securement of dressings

- Securing dressings and ostomy pouches to fragile skin
- When repeated taping is needed
- Anchoring post-surgical dressings
- Used as retentive sheeting over gauze
- Securing over areas where skin may stretch (e.g., edema, distention, hematoma formation or movement)

- Wrapping splints/arm boards
- Compression dressing
- Overwrap for Unna's boot
- Holding other dressings
- Securing I.V.s and other devices/sterile drape stabilization
- Wrapping leg post-operatively

**Kendall™ Paper Tape**

- Excellent for repeated applications on sensitive, fragile skin and elderly patients
- Hypoallergenic, breathable and gentle to the skin
- Minimal adhesive residue upon removal

**Kendall™ Silk Tape**

- The most economical, high-strength and high-adhesion tape
- Excellent for securing regular and bulky dressings, tubing, and immobilization

**Kendall™ Standard Porous Tape**

- Strong and easy to tear
- Used to secure medical devices and light immobilization support
- High initial adhesion
- Economical and easy to use
- Tears easily crosswise and lengthwise

**Kendall™ Waterproof Tape**

- Cloth backing with a high tensile strength to keep moisture from penetrating to the skin or dressing
- Adhesive provides a durable hold

- Gentle to skin and conformable
- Clean, easy to tear by hand
- Easy to handle with gloves
- Latex-free and hypoallergenic

- High tensile strength
- Conformable and easy to tear by hand
- Hypoallergenic and latex-free

- High initial adhesion for secure placement
- Strong backing for durability
- Excellent adhesion in moist and dry conditions
- High strength for durability
- Convenient bi-directional tear for easy sizing
- Versatile and water-resistant

- Waterproof and oil resistant
- Easy to write on
- Waterproof coating
- Durable hold yet, easy to tear

- For use on fragile, at risk skin
- Securing lightweight tubing
- When repeated taping is needed
- For lightweight dressings

- When strong adhesion is essential
- Securing tubing and devices
- Immobilization of joints and limbs

- Securing tubing and devices
- Positioning body parts
- Immobilizing fingers and toes
- Stabilizing finger splints
- Anchoring bulky dressings

- General purpose taping needs
- Outpatient use
- Used with Bandage wraps, windowed casts, ostomy flanges, dressing protection

## Ordering Information

Item Code	Description	Packaging	Ship Case
<b>Kendall™ Clear Tape</b>			
8533C	Kendall Hypoallergenic Clear Tape 0.5" X 10 Yds.	24 Rolls/Box, 10 Boxes/Case	240
